

TERESA VITO

STATEMENT:

"From the time I picked up my first crayon I knew art was my truth. My enthusiasm for drawing and painting has never wavered and so my path was chosen. Painting for me brings the wonders of life into visual form.

When I am painting, the subject I am seeing comes to life as I receive the energy of its beauty and harmony. Sometimes a painting flows like magic, but mostly it's about the process. The process is my passion. "

Teresa Vito's paintings reflect the beauty she sees all around her. She loves to paint *living energy*, whether it is the outdoor landscape, berries and flowers picked for a still life or the unending variety of the human form. A master of portraiture -- her paintings describe not only the physical features of a person but the spirit of the person as well.

Her constant quest to expand her knowledge and experiences lead to plein air painting because for her the expression of the earth can be as telling as those of people. Recent travels to Spain, Mexico, Italy and France have provided her with a fresh view of the land and its inhabitants. She continually paints wherever life takes her, never far from a paintbrush. Her paintings are a beautiful balance of detail and painterly gesture.

Vito has been working full time as an artist since 1992 and has a B.A. from the State University of New York at Geneseo. She has won numerous national awards' including an award of excellence, Best Portrait and Best Still Life from Oil Painters of America. She currently resides in Pueblo, Colorado – a day's drive away from some of her favorite painting spots.
